

KATHAN PATEL

Toronto, ON, Canada ◇ +1 (437) 428-2633 ◇ kathanpatel29@gmail.com ◇ [LinkedIn](#) ◇ [Github](#) ◇ [Portfolio Site](#)

SUMMARY

Junior Full-Stack Web & Automation Developer with hands-on experience in modern web technologies and automation tools. Skilled in React, Node.js, Express, MongoDB (MERN), TailwindCSS, Python scripting, and UiPath for RPA. Familiar with Git/GitHub, REST APIs, and Agile workflows. Passionate about building responsive, scalable web applications and automating business processes to improve efficiency.

EDUCATION

Post-Graduate Certificate in Web Development Jan 2024 – Apr 2025
Humber College, Canada

Post-Graduate Certificate in Project Management May 2023 – Dec 2023
Canadore College, Canada

Bachelor of Information Technology Jul 2018 – Jun 2021
Charotar University, India

TECHNICAL SKILLS

Programming Languages: Python, JavaScript (ES6+), Java, C#, SQL

Web Technologies & Frameworks: HTML5, CSS3, Sass, TailwindCSS, Bootstrap, React, Redux, Vite, Node.js, Express.js, MERN Stack (MongoDB, Express, React, Node.js)

Automation / RPA: UiPath, Python scripting, workflow automation, process optimization

Databases: MongoDB, MySQL, PostgreSQL, Database Querying, Data Validation

Tools & Platforms: Git, GitHub, Postman, JIRA, VS Code, Command Line

Concepts: Responsive Design, REST APIs, CRUD operations, Authentication, Deployment, Agile Development, Version Control, RPA Workflows

PROFESSIONAL EXPERIENCE

Automation Software Developer / Support Analyst CCBST, Canada
Aug 2024 – Mar 2025

- Developed automation workflows using UiPath to reduce repetitive manual tasks.
- Built Python scripts for data manipulation, validation, and reporting.
- Developed and maintained web applications using React, JavaScript, HTML, CSS, and TailwindCSS.
- Created backend services with Node.js and Express, connected to MongoDB.
- Implemented responsive dashboards and UI components for data visibility.
- Managed code versioning using Git and GitHub.
- Documented automation workflows, scripts, and internal technical procedures.

Application Support Technician Yogi Traders, India
Jan 2022 – Mar 2023

- Assisted with development and maintenance of internal business applications.
- Performed debugging, testing, and SQL data validation.
- Collaborated with developers to identify and resolve software issues.

- Maintained technical documentation and system updates.

PROJECTS

MERN-Stack Food Delivery Application

React, Node.js, Express, MongoDB, TailwindCSS

- Developed a full-featured food delivery platform with separate frontend, backend, and admin interface.
- Frontend: React with TailwindCSS for responsive UI, dynamic menus, and order tracking.
- Backend: Node.js and Express server handling REST APIs, authentication, and payment integration.
- Admin Interface: Dashboard for managing orders, menu items, and users.
- Integrated MongoDB for storing user data, orders, and menu items.
- Implemented authentication, CRUD operations, and role-based access control.
- Version-controlled code using it & GitHub, and deployed the app on vercel.

Booking Management System

MERN Stack

- Developed a web-based booking system using React, Node.js, Express, and MongoDB.
- Designed UI with TailwindCSS and responsive layouts.
- Implemented authentication, CRUD operations, and database queries.
- Version-controlled code with Git and GitHub.

Personal Portfolio Website

React, TailwindCSS

- Built a portfolio website to showcase projects and skills.
- Implemented responsive design and interactive components using React and Tailwind.
- Deployed the website using GitHub Pages.

AWARDS & ACHIEVEMENTS

- Dean's List – Humber College 2024/2025
- Successfully completed multiple full-stack web and automation projects

PORTFOLIO & LINKS

- GitHub: github.com/kathanpatel29
